

Pickups:

This is what to order if you just want a pickup set. Covers are included for all pickups.

Pre-Wired Assembly:

This is what to order if you want a pickup set, covers, and all new electronics. Comes with all items soldered together into a single assembly. No pickguard and No knobs are included. This is best utilized when you already have a guitar with a pickguard and the plastic hardware.

PICKUPS
Vintage Electromagnetic Tone

Loaded Pickguard Assembly:

This is what to order if you are wanting a complete wired assembly which includes the pickup set, covers, knobs, pickguard, electronics and the entire assembly is soldered together into a single unit. This is best utilized if you want a simple swap or if you prefer to solder as little as possible to make a pickup swap.

Pre-Wired Harness:

This is what to order if you only want to replace the electronics in your guitar. **NO** pickups are included with this item. This item only comes with the guitar electronics, switch, cap, pots and input jack and are soldered together to a single unit. There is soldering required. Lead wires to the input jack and the pickup lead wires will need to be soldered to the switch and ground wires to the volume pot ground.
